Optional: Students who like using a physical planner are welcome to bring one that best fits their personal organizational style.

****Pre-Algebra Students** need a TI-30XIIS which runs \$13-17. (When students have the same type of calculator, it makes it easier to teach keying sequences.)

****Algebra/Geometry Students** need a TI-84 Series graphing calculator. Teachers prefer the TI-84 plus CE since it is thinner and rechargeable, but any TI-83 or 84 series is acceptable. Staples usually has these calculators for sale for \$99.99-\$109.99 (reg. \$125-150) mid- to late July into early August. Check Staples ads in the summer.
